

ANDERSEN

WORTH DRIVING HOME TO

www.andersen-ev.com

ANDERSEN

THE ROAD AHEAD. Come with us on a journey.
Carefully designed, beautifully made electric car charge points.
Uncompromising quality and style.
A charge point worth driving home to.

Excellent Quality ★★★★★

How an electric car charger should look - great design, neat installation, OLEV grant approved, very tidy cable management, but super functional.

Tom Potter

ANDERSEN A2

TIMELESS DESIGN. SUPERIOR TECHNOLOGY

The A2 is our iconic wall mounted charge point that cleverly hides the integrated cable and plug.

Smart controlled connectivity and the choice of 7kW or 3-Phase, 22kW power keeps you in charge and in control.

Smart Phone activated lock and unlock features give you reliable smart charging that won't let you down.

From modernist town houses to charming coastal cottages, the Andersen A2 can be personalised to match the unique style of any home. Select from a range of metal finishes and natural woods to transform your charging experience.

For unrivalled aesthetics and reliable charging, relax you've just found it.

PLUG COMPARTMENT

The compartment stores the plug neatly whilst keeping it clean. The magnetic lid lifts up allowing easy access and a nice finishing touch.

FAST CHARGING

7kW for single phase
22kW for 3-phase electricity supply.

COMPACT SIZE

Elegant and discreet measuring
494 x 348 x 148 mm.

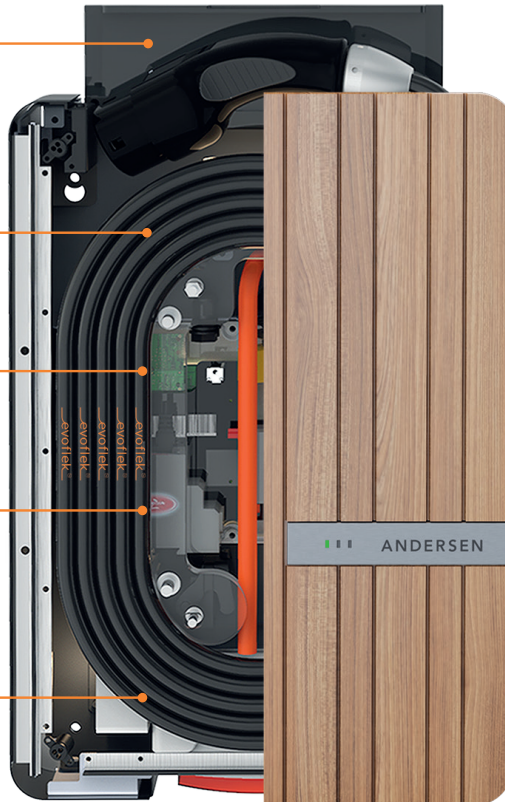

evoflek™

EVOFLEK™ CHARGING CABLE
Lightweight and highly flexible.
Available in 5.5m, 8.5m (7kw)
or 6.5m (22kw).

GUARANTEED TO LAST

Made of solid aluminum and
stainless steel, our chassis comes
with a lifetime guarantee.

KONNECT+

STAY IN CHARGE

Remotely lock, schedule and track
your energy usage and costs,
all from your iOS and Android
smartphone.

ACCOYA® WOOD FRONTS

Option shown in 'Cotswold Oak'.

METAL COLOURS

For front and body.

LIGHTING

An LED display on the front panel
indicates charging status.
Interior lighting gives you convenient
help for night time use.

Beautiful ★★★★★

The charger is even more impressive in person. It perfectly matches the colour of the wall on which it is mounted (stone). It is unassuming and yet beautiful.

R Collings

COLOURS AND FINISHES

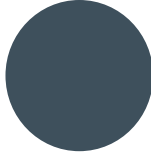

The A2's front and body are available in eight different colours. The panels can be matched, or arranged in different colour combinations.

The Andersen A2 is also available in four shades of natural wood, made from low maintenance, sustainable Accoya®.

METAL RANGE

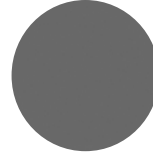

Ruby

Malmö Blue

Nearly Black

Steel

Southbank Grey

Stanton Green

Laurac Sand

Putty Stone

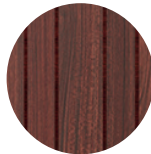

ACCOYA® WOOD RANGE

Cotswold Oak

Sarong Teak

French Walnut

Charcoal

INNOVATIVE MATERIALS - ACCOYA®

Sustainably sourced, high-performance Accoya® timber is more commonly put to the test in bridge building or on a ship's decks. Andersen use Accoya® to create a stylish finish for the A2 front panel.

Available in four translucent shades, all with a visible grain, Accoya® wood units are naturally beautiful and made to last.

Evoflek charging cables are probably the worlds most flexible and lightweight charging cable on the market. They are light to lift and flex into easy shapes which makes storing them a breeze. Evoflek charging cables are available in different lengths and custom made exclusively in the UK. Beware of stiff and heavy imitations!

THE ANDERSEN DIFFERENCE

Going electric is more than an ethical choice. It's a choice to embrace the future. A decision to bring your home, and your life up to date with pioneering and intelligent technology.

We don't believe anyone who's made that choice should be forced to compromise. With every product we make, we match smart technology with genuine craftsmanship. Each Andersen charge point is made to order in our UK factory

using materials of the highest quality. The end result is a product built to deliver perfect performance year after year. A product that lets you get on with life without interruption.

We invest in a simple philosophy to make charging your EV as great as driving one.
Experience the best.

Andersen. Worth Driving Home To.

KØNNECT+

SMART CONTROL

Meet Andersen Kønnect+. Our smart technology. Available in all our charge points as standard. It lets you monitor charging progress and track your energy costs. On your phone 24/7.

Quicker and even easier to set up.

SOLAR CHARGING

With Andersen Kønnect Solar Charging you can use your surplus local generated solar or wind energy to charge your electric car. Just select the Eco setting mode in the Kønnect app to monitor and choose when you want to use your green energy.

ENERGY MONITOR

Andersen Kønnect tells you how much energy you are using and how much you have spent.

REMOTE LOCKING

Give family and friends access to use your charge point even when you're not there. Andersen Kønnect app lets you remotely lock and unlock your charge point.

CHARGE SCHEDULING

Choose the start time of your charge. Andersen Kønnect makes it easy to work with your energy plan. Be more energy efficient and save money at the same time.

A blurred background image of a car charging station. The word "KØNNECT" is visible on the front of the station.
